

## **Biography for Juli Dalton**

Juli Anne Dalton earned a Bachelor of Arts degree from Brigham Young University College of Humanities in 1992. She has ten years' leadership experience in non profits, having served for five years as the President of the Prescott Pops Symphony and for three years as founder and chairwoman of the Arizona Center for Constitutional Principles (ACCP, Inc).

An avid lover of running, Pilates, strength training, and healthful living, Juli now turns her attention to the founding and daily operations of Wellbridge Health Center, LLC, which will open its doors in January 2014. Overseen by a consulting physician, Wellbridge will follow a consultative model of integrative health care as it seeks to help doctors and patients find viable alternatives to traditional care in the form of Pilates, nutritional counseling, aromatherapy, and massage.

Juli and her husband, Tony (a native of Prescott) live in Prescott with their three sons. Tony owns a small business in Prescott which he purchased from his father in 2000.
